Election/Restrictions

Claims 1-52 are allowable. Claims 3 and 4, previously withdrawn from consideration as a result of a restriction requirement, contain all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), the restriction requirement for the inventions, as set forth in the Office action mailed on 9/30/05, is hereby withdrawn and claims 3 and 4 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-52 are allowed.

The following is an examiner's statement of reasons for allowance: The Prior Art of record fails to teach or render obvious a method of manufacturing a light-propagating probe for a near-field microscope, the light-propagating probe having a light-propagating body that terminates at one end in a hook-shaped section that has a sharpened tip section at a free end thereof, the tip section being coated with a metal film coating except at the tip end thereof to form a transparent opening at the tip end for passing light, a portion of the light-propagating body that extends rearward of the hook-shaped section constituting a spring operating part for functioning as a cantilever capable of being displaced in a direction perpendicular to a sample surface, and the light-propagating body having a reflecting surface for carrying out optical position detection of the tip section, the method comprising:

a step of sharpening the light-propagating body; a step of forming the light-propagating body in a hook-shape; a step of forming the reflecting surface; a metal film coating step for forming the transparent opening; a step of protecting the transparent opening with a resist material; a metal film coating step for

Application/Control Number: 10/692,345 Page 3

coating at least the reflecting surface; and a step of removing the resist material. Note that Pages 31-33

of Arguments section, filed 3/20/07, recite the reasons, which form the basis for the withdrawal of the

previous rejection.

Any comments considered necessary by applicant must be submitted no later than the payment

of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such

submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should

be directed to Roberts Culbert whose telephone number is (571) 272-1433. The examiner can normally

be reached on Monday-Friday (8:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor,

Parviz Hassanzadeh can be reached on (571) 272-1435. The fax phone number for the organization

where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application

Information Retrieval (PAIR) system. Status information for published applications may be obtained from

either Private PAIR or Public PAIR. Status information for unpublished applications is available through

Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC)

at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative

or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-

1000.
